

1. Given the curve as shown...
Find elevations for full and half stations:

STATION	X	TANGENT ELEVATION	OFFSET	CURVE ELEVATION	FIRST DIFFERENCE	SECOND DIFFERENCE

2. Given the curve as shown...
 Find elevations for full and half stations:

STATION	X	TANGENT ELEVATION	OFFSET	CURVE ELEVATION	FIRST DIFFERENCE	SECOND DIFFERENCE

3. Given the curve as shown...
Find elevations for full and half stations:
(Include station at midpoint of curve.)

STATION	X	TANGENT ELEVATION	OFFSET	CURVE ELEVATION	FIRST DIFFERENCE	SECOND DIFFERENCE
